## *News and Updates!*

### **Big Boat Happy St. Patty's**

**Sunset Sail**, Sunday, March 17, was not the most spectacular sunset but we did get some cool colors through the clouds.

### **The Big Water Challenge Sails**

**2012/2013** Well done, **Lisa**, who led from the beginning!

**Scott**, who graduated our Instructor Qualification Clinic in January, taught his first class April 1, 2, and 3!

Congratulations to him!

**2013 so far** January's weather was like March and March has been a weather watching roller coaster. Our March 2 day class students, above, are going to take about a month to complete their class! We don't know what they did to taunt her, but Mother Nature has not been happy with them. They have been smiling through it all though, from cold rain to 25 knot gusts!
